Course Instructors : Jhilik Pakhira, Swarnali Chowdhury, Rupa Chakrabarti, Moitraye Chatterjee, Indrani Dey

Course Fee: NIL

Starting Date : 19/04/2022

Objectives of this course

Value added Add on course is very helpful and play a vibrant role in character building of human being. This type of course is essential for young learners in colleges. It brings positivity amongst our youth students that will be immense helpful include the development of humanistic, ethical, Constitutional, and universal human values of truth (satya), righteous conduct (dharma), peace (shanti), love (prem), nonviolence (ahimsa), scientific temper, citizenship values, and also life-skills etc. This course is helpful for acquiring good habits and holistic development of the students. Students must acquire something more than what is provided in the curriculum. No university curriculum can adequately cover all areas of importance for character building and making a good citizen. So, offering this course among students will be helpful to supplement the curriculum and to make students a better human being in future.

Department of Education of Prasanta Chandra Mahalanobish Mahavidyalaya offered a course **Save Human and Humanity: Educational Ways and Means** in this academic session 2021-22 in association with IQAC. A syllabus with time frame for the course was structured with the consultation of faculty members of different colleges and with our college, Principal and IQAC Coordinator. The course was approved by GB members in the meeting and also by the West Bengal state University. This course started from 19th April, 2022. From this date every day one of our departmental teacher as per schedule take one hour class up to completion of 35 hours class. The classes were taken in blended mode. 92 students were first registered but 25 students regularly attended the classes. This value-added course restricted for 2nd, 4th and 6th semester education Hons candidates and those General students who have Education in there subject combination. After completion of the course students got a certificate. 25 students completed the course and they got the certificate.

We want to create a more sustainable society, with stable economies and more inclusive societies. As we know that exemplary citizen is made, not born. Just as we learn mathematics and languages, we should also **become specialists in those lessons that are fundamental to living in harmony and social progress such as respect, empathy, equality, solidarity and** critical thinking. Our students also very much satisfied with the course. They said that, rather perfect to say that they commuted to maintain the behavior what they learn.

The course aims to facilitate-

- To give the students a progressive way for their future and also helps them to know the real purpose of their life.
- To makes it clear to them, the best way to live a life that can be helpful to individuals as well as people around.
- To help students to become more responsible and practical.
- To help them to better recognize the perception of life and lead a positive life as a responsible citizen.
- To help in developing a strong relationship with family and friends.
- To build a strong personality and character of the students.
- To give a message that value education changes a positive opinion about life.
- We expect to developed their vision and mission to grow a liveable pollution free environment

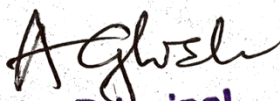

Outcomes of this course

This value education is teaching and learning about the ideals that society considers important. The objective of this study is not only to recognize the values but also to reflect them in their behaviour and attitudes. After completion of this thirty five hour study students can able to strengthen their-

- Optimism
- Self-esteem
- Commitment to personal fulfilment
- Ethical judgment
- Social responsibility

Other anticipated behavioral changes can be seen in the future

- To contribute to society through good residence and trust.
- Moral education, personality education, ethics and philosophy have tried to do similar things.
- Moral awareness must be recognized to bend the progress of science and technology towards the pleasure of manhood.
- Common values must be able to rediscover to unite the human with the over-failure of traditional values.
- Pupil may be more complex in making decisions about matters related to values.
- They should be helped to develop the ability to make the appropriate selection in relevant situations through value education.
